DETAILED ACTION

Response to Arguments

The applicant's arguments regarding traversal of the restriction requirement and rejection of the pending claims are rendered moot by the applicant's cancellation of all previous claims and presentation of new claims 16-25.

Drawings

The applicant's replacement drawing sheet satisfies the previous objection, hence said objection to the drawings is withdrawn.

Allowable Subject Matter

1. Claims 16-25 allowed.
2. The following is an examiner's statement of reasons for allowance: Independent claim 16 contains the limitations of previous claim 11, which was indicated by the examiner to contain allowable subject matter in the previous office action. In particular, the prior art does not teach the limitation "wherein said six-axis alignment mechanism does not perform position control of said fine movement stage, said fine movement stage is urged against said coarse movement stage by the magnetic force, and abuts against an alignment section arranged on said coarse movement stage, so that a position and a posture of said fine movement stage are regulated."

3. Claims 17-25 are allowable by virtue of their dependence on allowable claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2881

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
